

How i can create Wise2Sync account?

You can easily register and create an account here: <https://app.wise2sync.com/register>. Demo products will be uploaded to your account so you can experiment and explore all the features Wise2Sync provides.

When you are ready to start with the integration you are interested in, you can press the "Upgrade" button and we will come back to you to arrange a brief online meeting to discuss your needs and how our product can help you to achieve them.
