

How to start using Wise2Sync Shopify APP?

1. Discover or select suppliers and sign contracts with them. Receive access/logins or link to their product information feed*.
2. Install the [Wise2Sync Shopify App](#).
3. After installing the Wise2Sync app from the Shopify App Store, we will automatically create an account for you on app.wise2sync.com, connect it with your Shopify store, and redirect you to it directly.
4. When you are ready to start, press the "Upgrade" button at the top, fill in your billing details, and we will send the first payment.
5. Please send us the logins or links to the suppliers' product feeds.
6. After receiving the necessary data and payment, we will add the product information to your Wise2Sync account.
7. The export profile will be created automatically with all mandatory attributes for Shopify. Map product categories as [tags](#), add [price markups](#) and make sure all the changes you have made are saved.
8. Inform us when you are ready for the product data import.
9. We will create a periodic product feed data update twice per day, and synchronization will start.

**in case you haven't done this yet.*
