# Product Export Checker

This feature is useful when you want to check why certain products were (not) exported in a particular export profile.

Navigate to "Product Export Checker" menu item from the left sidebar. You will see a search form. Select:

- Supplier from your list
- Attribute you are going to search for (usually SKU or EAN)
- Choose the export profile from the list

If the product is not getting exported and fails the conditions, the reason will be explained. For example, the product below was not exported as it was last updated by the supplier last month. Meaning that the product is no longer available from the supplier.

Product Information

Supplier Name	Matterhorn
Suplier Code	matterhorn
Product Name	Push-up model 32298 Axami
Manufacturer	axami
Product SKU	M211512
EAN Code	
Entity PK	M211512
Quantity in Stock	5
Product Price	23.9
Synced with Supplier ⓘ	1611907507 view product data

Checking How Product "Matterhorn, SKU: M211512" Exported in Export Profile "WooCommerce Product Feed (id: 928)"

Supplier	matterhorn
Product Entity PK	M211512
Exporter Conditions	
Collector Status	failed
Collector Message	Product is older than latest sync date
Failed Condition	Last Synced with suppliers Tue Feb 09 2021 15:43:52
Product Value	Product last synced with supplier 1611907507

Finally, in this example, we can see that the product passed all the conditions and was exported correctly. It also gives the basic information about the product such as the original product price (given by the supplier) and quantity.
